## PUZZLES

### MECHANICAL PROPERTIES OF FLUID

PUZZLE NO.1: FIND OUT WORDS FROM THE FOLLOWING  
WITH THE HELP OF KEYWORDS:

1. Unit of pressure
2. Force of attraction between similar molecules.
3. One of the application of Bernoulli's equation
4. Constant number related to critical velocity.
5. Anything that can flow.
6. Law related to motion of spherical object within fluid
7. Velocity given by spherical object while moving in fluid.

|   |   |   |   |   |   |   |   |   |   |   |
|---|---|---|---|---|---|---|---|---|---|---|
| L | P | A | U | T | O | M | I | Z | E | R |
| Z | A | D | H | E | S | I | V | E | E | E |
| P | S | Q | F | R | J | T | I | U | R | Y |
| S | C | H | D | M | G | M | O | H | R | N |
| B | A | R | M | I | R | W | T | K | J | O |
| F | L | U | I | N | C | B | S | A | E | L |
| R | E | M | L | A | N | D | D | W | S | D |
| F | L | U | I | L | D | N | E | W | K | S |

## PUZZLE NO.2 :WHO AM I?????

Q.1 I m the one who ionizes gas and I m part of blood. Nowadays I m type of a tv screen also.....

Q.2 I m operated by liquid pressures and I used fluid mechanics....

Q.3 I m the space where no matter lies. I m lonliest .....

Q.4 I m one of the phenomena which gives explanation about bubbles.

Q.5 I m U shaped instrument having low density liquid within and I can measure gauge pressure.

Q.6 I m pure number,by using me you can distinguish between two types of flow.

**\* PUZZLE NO.3 : RECOGNIZE THE CONCEPT OF PHYSICS BY THE FOLLOWING DAILY LIFE APPLICATIONS:**

1. Design of airoplane wings.
2. Spreading of toothpaste.
3. New cotton dresses must wash in cold water.
4. One can experience a sideway jerk while driving two wheeler when a heavy vehicle crosses.
