Innovation During Pandemic

Covid-19

Corona Virus or Covid-19 has brought world to its knees. Businesses have been shut, Schools and Colleges were closed, travel banned. Whole world was in complete lockdown.

But as we say challenges create opportunities. Covid-19 may have turned our lives up and down but it has certainly provided an opportunity for all of us to rise.

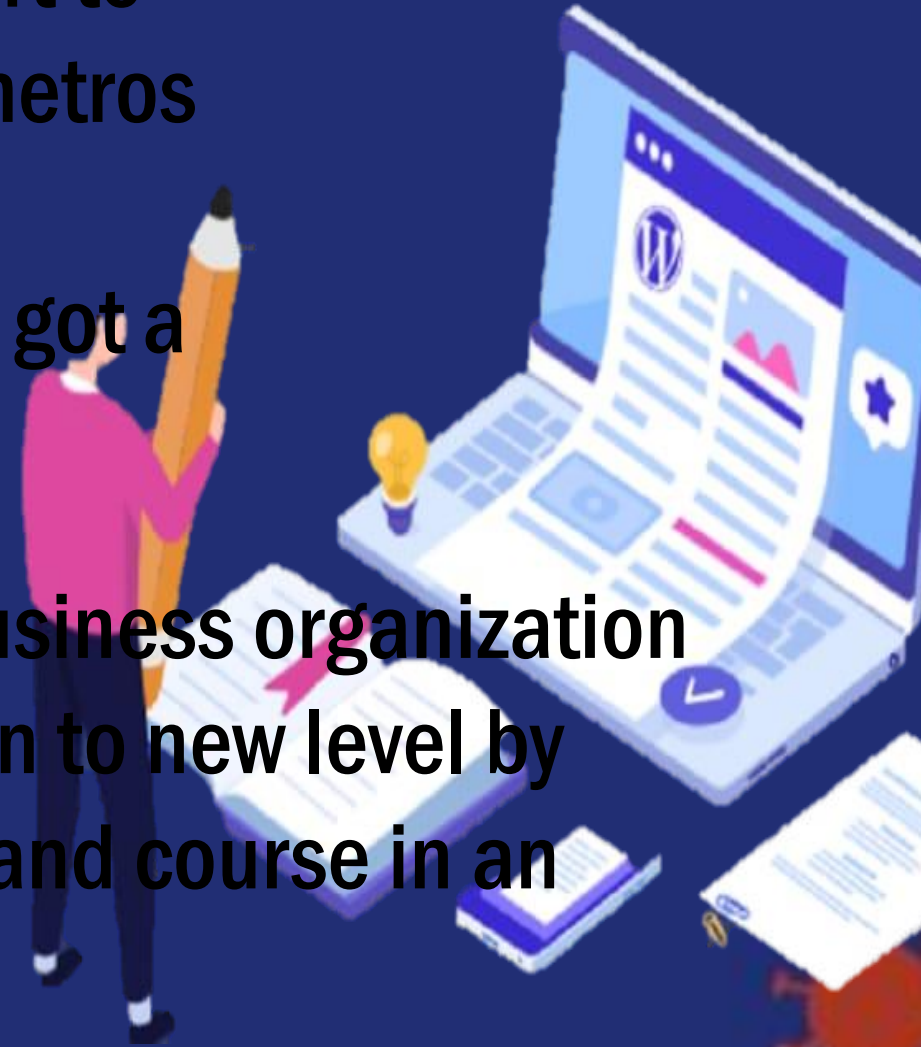

E-Learning Classes

E-Learning

Covid-19 has given a huge lift to online learning both in the metros and non-metros. Online education, for instance, has got a major boost.

Educational institutions, business organization have taken online education to new level by offering classes, coaching and course in an innovative way.

Stop!

Wash your hands its
corona time

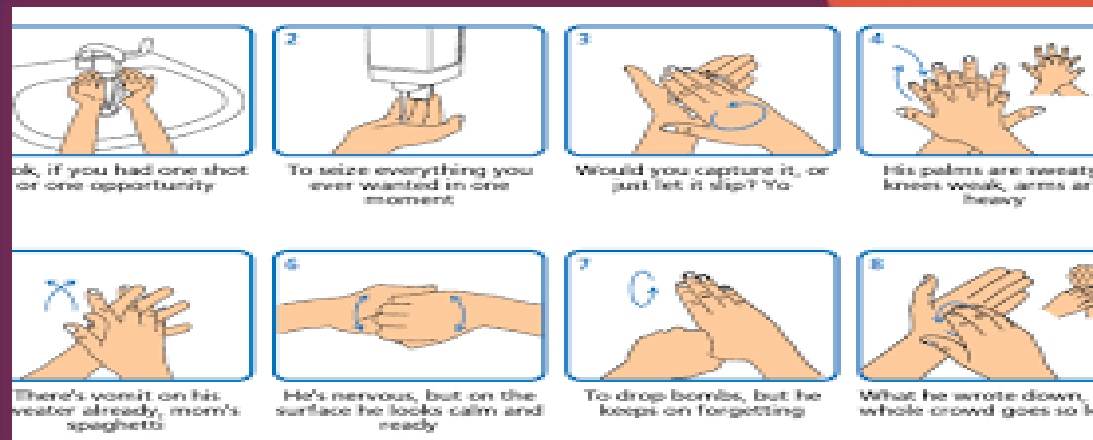

Hygiene and Health Consciousness

We have become more hygiene conscious.

People have started talking about Personal and Social Hygiene more seriously.

The ritual of washing hands, sanitizing things before use,

That started as a compulsion is becoming a Habit.

According to recent survey 87.2% of Indians have become more vigilant towards their personal hygiene during Lockdown.

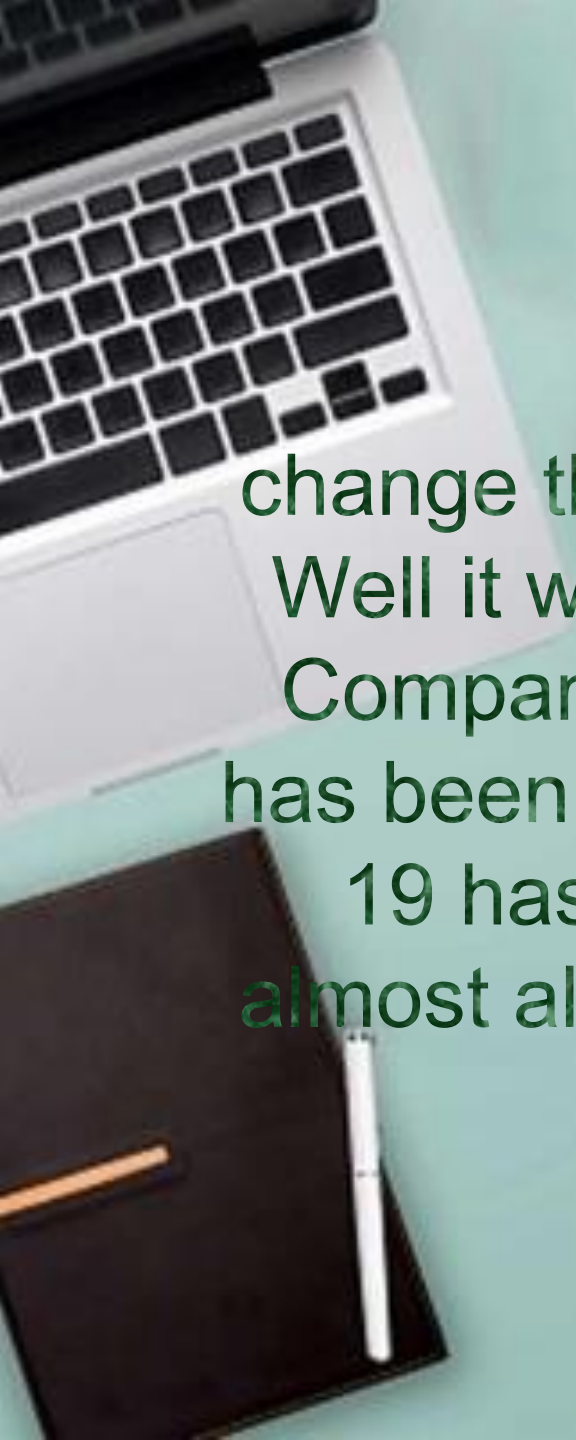

To make them healthier people have started using healthy routines including yoga and exercise.

Please Be
Silence
I am
working

A light blue background with a subtle texture. In the top-left corner, there is a close-up of a laptop keyboard. In the bottom-left corner, there is a dark brown notebook with a white pen resting on it.

WORK FROM HOME

Work from Home is 3rd and major change that has become a part of our lives. Well it was never a new concept. Many IT Companies in the West and even in India has been practicing it with perfection. Covid-19 has taken it to another level with almost all companies asking its employees to work from home.

Innovation During Pandemic

Innovation During Pandemic

As we know necessities are mother of Invention.

The Covid-19 Pandemic had created an opportunity for all startups and individuals to innovate in science. For instance in India,

- 1. Vistar Air Purifiers by startup in Delhi**
- 2. Milagrow Seagull, a cleaning Robot**

Young Minds during Corona Pandemic have created a new definition of Innovation.

A list Of IITs and other institution's students contribution toward Pandemic:-

IIT Guwahati:- Drone for disinfecting

IIT Kanpur:- A low Cost ventilator innovated by two of its student.

The background of the slide features several cartoonish red virus particles. Each particle has a spherical body covered in small spikes and a pair of large, expressive blue eyes. The viruses exhibit various emotions: one in the top left looks sad with a downturned mouth; one in the top center has a wide-eyed, open-mouthed expression of shock or awe; one on the left side has a wide-eyed, open-mouthed expression of surprise or fear; one in the middle right has a wide-eyed, open-mouthed expression of surprise or fear; one in the bottom left has a wide-eyed, open-mouthed expression of surprise or fear; and one in the bottom center has a wide-eyed, open-mouthed expression of surprise or fear.

THANK YOU

Corona or any other Pandemic is not as bigger as our Unity and Willingness to achieve.

A person who turns up challenge into opportunity can never be defeated.
